**Hengst**  
FILTRATION

# Hengst Quality and Performance

Established in 1958 | Family business for three generations  
21 locations on 4 continents | 3,000 global employees

Hengst is a leading supplier of filtration technology for engine and vehicle manufacturers. We're known worldwide for our customer service, lean structure, innovative technologies and operational excellence. We've been producing high-quality filtration for leading OEM equipment brands for over 65 years.

Commercial vehicle filters – by their nature – are subject to high stress that comes with long miles and heavy loads. You need filtration that can stand up to the stresses and strains – and be ready to perform day-after-day.

# Broad Coverage for Fleets

In North America, we're growing rapidly by adding filtration coverage for a wide range of equipment, including commercial vehicles/trucks.

We stock filters for different vehicle models and types including: air filters, oil filters, fuel filters, cabin air filters and many other types of filters for a wide range of commercial vehicle makes and models.

If you don't see what you're looking for in the list that follows, please contact us to inquire about new parts, as more are being added regularly.
